

HOURLY RESTRICTIONS FOR LANE CLOSURES ON INTERSTATE ROUTES

The Department prohibits the installation of lane closures, shoulder closures, mobile operations, pacing operations, or any operations that will impact the efficient flow of traffic or hinder normal traffic operations on the roads of the South Carolina state highway system during those times listed below, peak travel hours, holidays, holiday weekends, extended holiday periods, weekends, special events, or any time traffic volumes are high. In addition to the lane closure prohibition hours listed below, for interstate highway lane closure prohibition hours during holidays, see the supplemental specification, "Lane Closure Restrictions", dated July 1, 2019. [Click here.](#)

Do not close travel lanes on high volume highways during peak traffic periods or any time traffic volumes exceed the numerical values determined to be acceptable by the Department. Do not close travel lanes with high volume commuter traffic during peak traffic periods. The Department reserves the right to modify these restrictions as listed as conditions warrant and as directed by the Engineer.

These hours specified for prohibition of lane closures shall also apply to shoulder closures, mobile operations, and pacing operations, unless otherwise directed by the Engineer.
