

APPENDIX E

Appendix/Attachment Title

Bridges with Underwater Inspections

Appendix/Attachment Revision and Year:

Version 1.0, 2023

Appendix/Attachment Introduction and Discussion

All underwater inspections in South Carolina are performed by consultants. The BIPM is responsible for assigning underwater inspections in the state. In the event that an underwater inspection is recommended for a bridge not on this list, Attachment 4.1, the Consultant Inspection Request Form, shall be completed.

Information in Appendix E is current at the time of the publication of Technical Note 01 (TN01). Contact BMO for updated information.

Appendix/Attachment Description

The bridges shown in this Appendix are bridges which are scheduled for underwater inspections as of the date of publication of BIGD. This Appendix shall be maintained by the BIPM or BMO designee. This Appendix shall be updated at least annually.

As stated in the BIGD, underwater inspections require specific underwater inspection procedure for the bridge. See Chapter 5 of the BIGD for applicable underwater inspection procedures.
