INSTRUCTIONAL BULLETIN NO. 94-12

SUBJECT: Permanent Construction Sign

EFFECTIVE DATE: June 24, 1994

SUPERSEDES: New

RE: Standard Drawing No. 605-1

**Superseded
by 1994-14**

The Department has been promoting safety in the work zone with a campaign this year called "Let 'em Work, Let 'em Live". Signs have been designed in light of this promotion to encourage motorists to take extra care when riding through the work zone. The new signs and revised quantities have been added to the "Permanent Construction Signs" standard drawing. Beginning with the August, 1994 highway letting the new standard drawing should be placed in plans as a special drawing until the new standard drawing has been distributed. Attached is a copy of the revised Standard Drawing No. 605-1.
