

VOLVO INTERCHANGE

PROJECT UPDATE

APRIL 2018

PROJECT OVERVIEW

The SCDOT is constructing a new three-leg directional interchange along I-26 in Berkeley County, South Carolina. The interchange will provide access from I-26 to the new Volvo Car Drive which leads to Camp Hall Commerce Park and the Volvo facility. The new interchange will be located along I-26 at approximate mile marker 189 which is approximately two (2) miles east of SC 27/Ridgeville Road (exit 187) and approximately five (5) miles west of Jedburg Road (exit 194). The proposed interchange includes both at-grade and flyover ramps.

Progress Update

- ❖ Foundation pile driving complete on both sides of I-26 for new bridge overpasses
- ❖ Bridge footings and columns complete in median; pier cap installation underway
- ❖ Eastbound ramps gaining elevation as mass fill operations continue
- ❖ Ground improvement work progressing for westbound ramps

The ramps are taking shape as work continues on the Volvo Interchange.

Installation of storm water pipe to improve drainage.
