

VOLVO INTERCHANGE

PROJECT UPDATE

OCTOBER 2018

PROJECT OVERVIEW

The SCDOT is constructing a new three-leg directional interchange along I-26 in Berkeley County, South Carolina. The interchange will provide access from I-26 to the new Volvo Car Drive which leads to Camp Hall Commerce Park and the Volvo facility. The new interchange will be located along I-26 at approximate mile marker 189 which is approximately two (2) miles east of SC 27/Ridgeville Road (exit 187) and approximately five (5) miles west of Jedburg Road (exit 194). The proposed interchange includes both at-grade and flyover ramps.

PROGRESS UPDATE

- ❖ Bridge girders over I-26 Eastbound are in place (see above image).
- ❖ Work continues on drainage pipe installations to promote stormwater runoff in various locations within the project site.
- ❖ Walls and support structures along Westbound lanes are under construction to prepare for bridge girders to be erected over I-26 Westbound.

Bridge girders over I-26 Eastbound.

Drainage pipe installation.

Wall and support structure construction for I-26 Westbound bridge girders.
