

# VOLVO INTERCHANGE PROJECT UPDATE

## AUGUST 2019

Visit the project website for up-to-date Traffic Alerts: <https://www.scdot.org/inside/volvo-interchange.aspx>

### PROJECT OVERVIEW

The SCDOT is constructing a new three-leg directional interchange along I-26 in Berkeley County, South Carolina. The interchange will provide access from I-26 to the new Volvo Car Drive which leads to Camp Hall Commerce Park and the Volvo facility. The new interchange will be located along I-26 at approximate mile marker 189 which is approximately two (2) miles east of SC 27/Ridgeville Road (exit 187) and approximately five (5) miles west of Jedburg Road (exit 194). The proposed interchange includes both at-grade and flyover ramps.

Crews enjoyed a beautiful South Carolina sunset as the project gets closer to completion.

### PROGRESS UPDATE

- ❖ Interstate and ramp paving work is complete.
- ❖ Final grading is in progress.
- ❖ Bridge decks have been grooved and the concrete parapet wall has been placed on all bridges.
- ❖ Overhead signs are being erected.
- ❖ Final erosion control measures are being placed.
- ❖ Grand Opening coming soon!

Grooving the bridge decks.

Overhead sign erection in progress.
